

Md. Maruful Islam

Dhaka, Bangladesh | marufulislam0098@email.com | github.com/maruf0237 | linkedin.com/in/md-maruful-islam98/

PROFILE SUMMARY

Final-year CSE student at Southeast University (CGPA: 3.79/4.00), expected to graduate in 2027. Passionate about computer networking, cybersecurity, and software development. Hands-on experience with network simulation, full-stack web development, and machine learning research. Strong analytical and problem-solving skills with a keen interest in network engineering, system administration, and Explainable AI.

EDUCATION

Southeast University

Bachelor of Science in Computer Science & Engineering

CGPA: 3.79 / 4.00 (2023 – Expected 2027) — Dhaka, Bangladesh

Mohammadpur Govt. College

Higher Secondary Certificate (HSC) – Science

GPA: 5.00 / 5.00 (Dhaka Board), Passed 2021 — Dhaka, Bangladesh

Kalatia High School

Secondary School Certificate (SSC) – Science

GPA: 4.50 / 5.00 (Dhaka Board), Passed 2019 — Dhaka, Bangladesh

CERTIFICATIONS

C)PTE – Certified Penetration Testing Engineer

Issued by Mile2 Cybersecurity Certifications

Issued: June 9, 2026 | Valid through: June 8, 2029 | Certificate ID: 30002-178-102-1210

TECHNICAL SKILLS

- Programming Languages: C, C++, Java, Python
- Networking & Security: Computer Networking, TCP/IP, VLAN, DHCP, OSPF, RIP, NAT, Network Security, Cisco Packet Tracer, Penetration Testing
- Database: MySQL, SQL
- AI & Research: Machine Learning Fundamentals, Explainable AI (SHAP), Research Paper Analysis, Data Mining
- Tools & Platforms: Git, GitHub, VS Code, Cisco Packet Tracer, Microsoft Office, Microsoft Excel, Canva
- Professional Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Technical Documentation, Presentation Skills, Research & Literature Review, Continuous Learning

PROJECTS

RECON-MASTER – Automated Network Auditing Tool (*Python, Socket Programming, Git*)

Developed a command-line network auditing utility that performs host discovery, open-port scanning, and basic vulnerability checks on local subnets.

- Used raw socket programming to implement TCP/UDP port scanner with multi-threaded scanning for speed
- Added OS fingerprinting heuristics and generated structured audit reports in plain-text and CSV formats
- Documented usage guide and hosted the open-source tool on GitHub with 100+ stars from the community

Selfish – Academic Management Portal (*Python (Django), MySQL, HTML/CSS, Bootstrap*)

Created a full-stack web application for managing student records, course enrolments, grades, and attendance, tailored for university administrative use.

- Built RESTful views with Django ORM backed by a normalized MySQL schema covering 10+ relational tables
- Implemented role-based access control separating Admin, Teacher, and Student dashboards with secure login
- Deployed responsive UI using Bootstrap; included data export to CSV and printable transcript generation
